Created	Key	Status
8/19/2017	mytestkey	Active
	trns1.1.1.20170819T022940Z.f15a3a66011e0cfd.f335f66e479be515713982059dad834b301b3a5c	

Replace Generate Key in Constants.java

5.Adding Banner/Interstitial Ads

Generate Ad UNIT ID for your app [Both Banner and Interstitial].

Please google on how to generate AD UNIT ID

<https://support.google.com/admob/answer/6128738?hl=en>

Sample AD UNITS

banner -

App ID: ca-app-pub-6553884734105254~6106586199

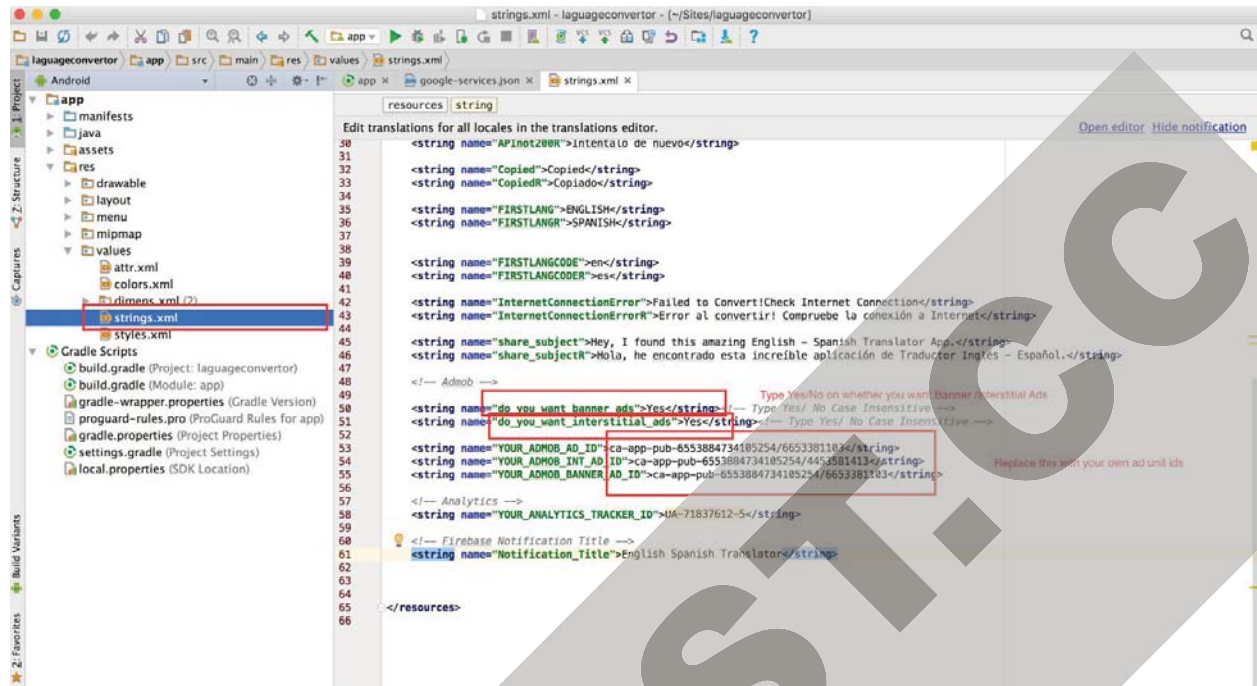

Ad unit ID: ca-app-pub-6553884734105254/6653381103

interstitial -

App ID: ca-app-pub-6553884734105254~6106586199

Ad unit ID: ca-app-pub-6553884734105254/4453581413

Go to strings.xml from project

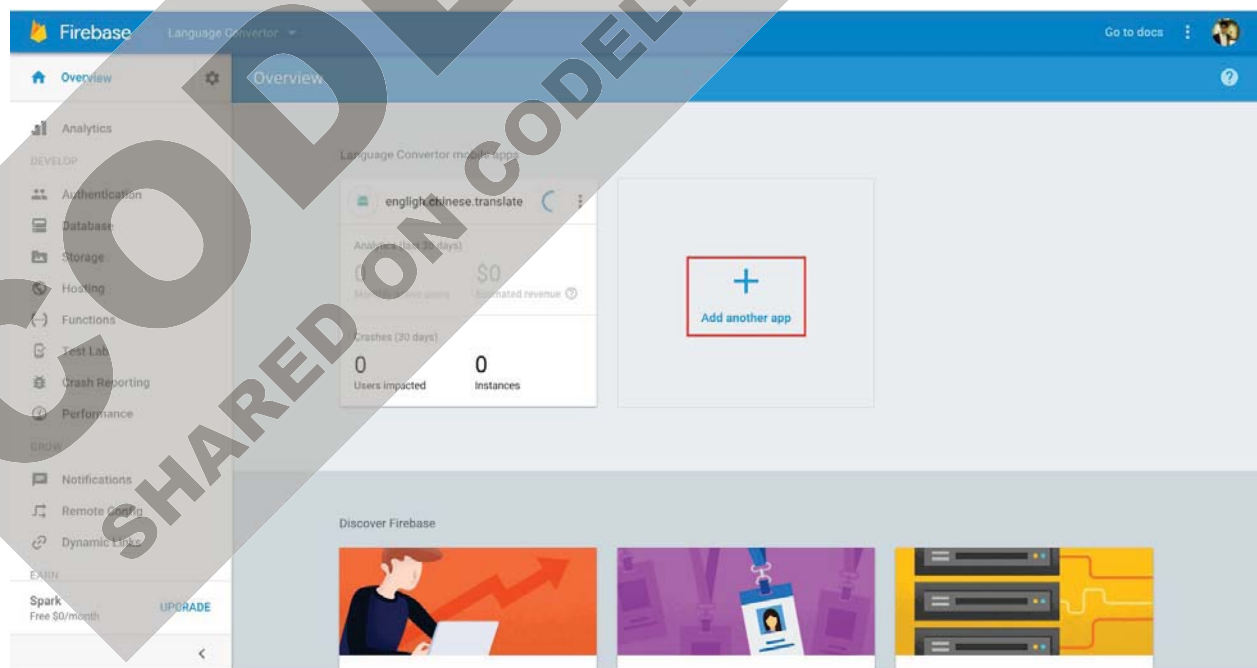

6.Adding Firebase Notifications

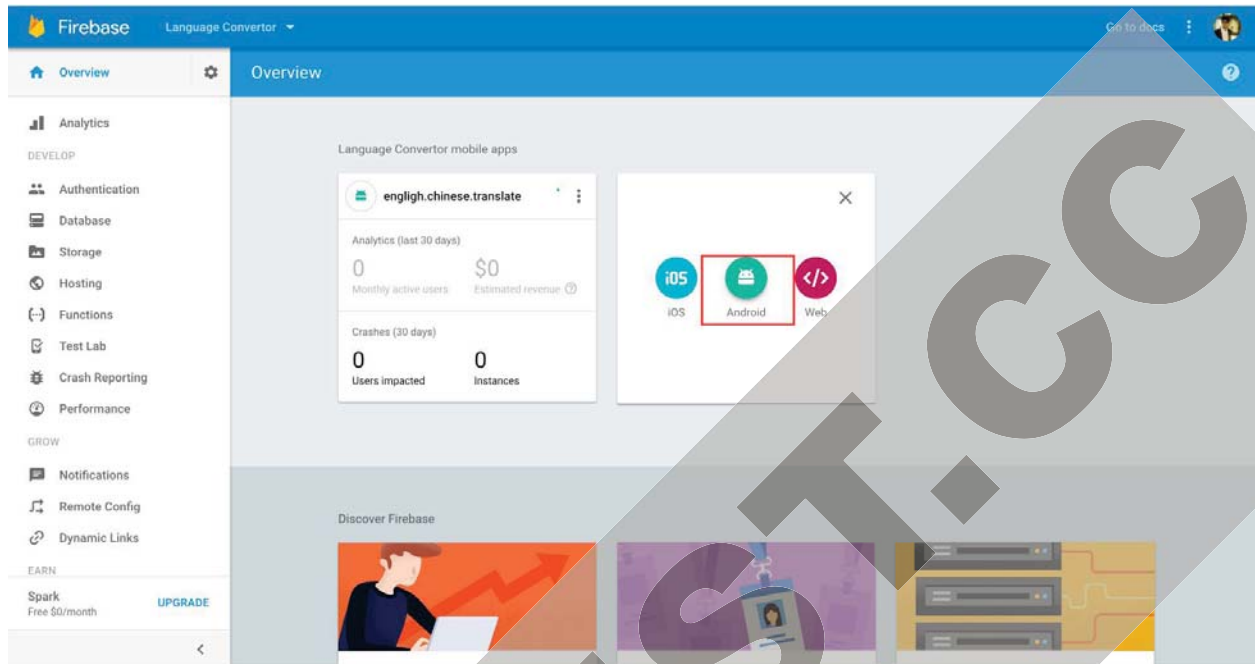

Go to <https://console.firebase.com>

Login with your gmail account

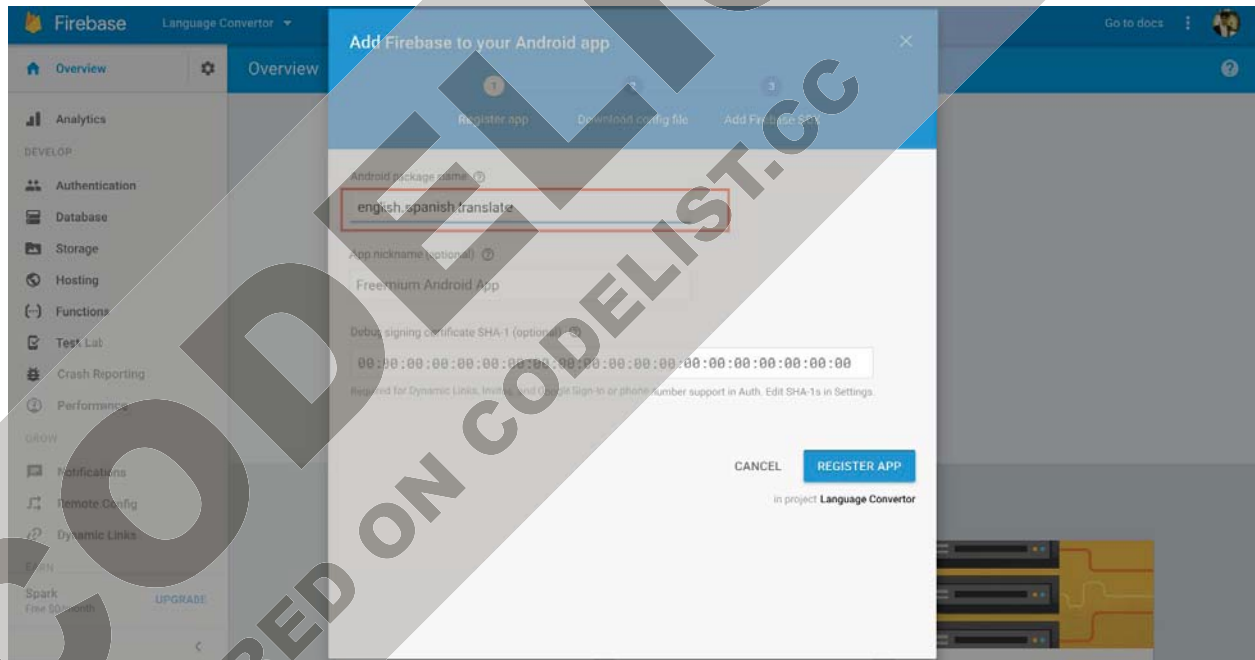

Add New App

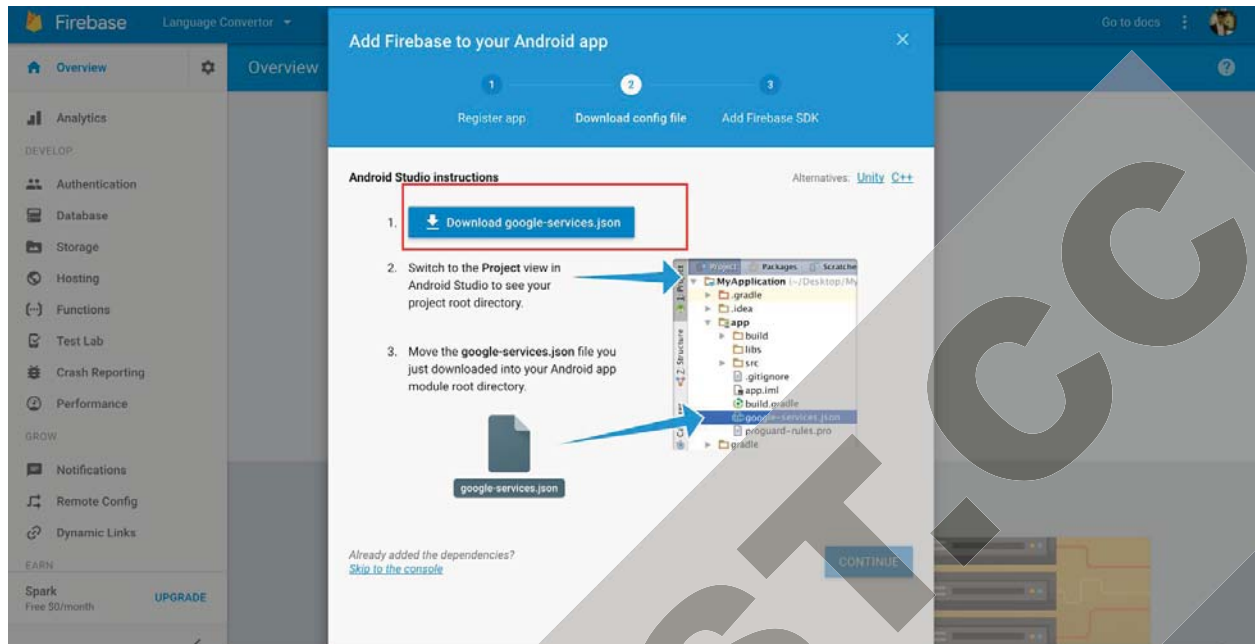

Select Android

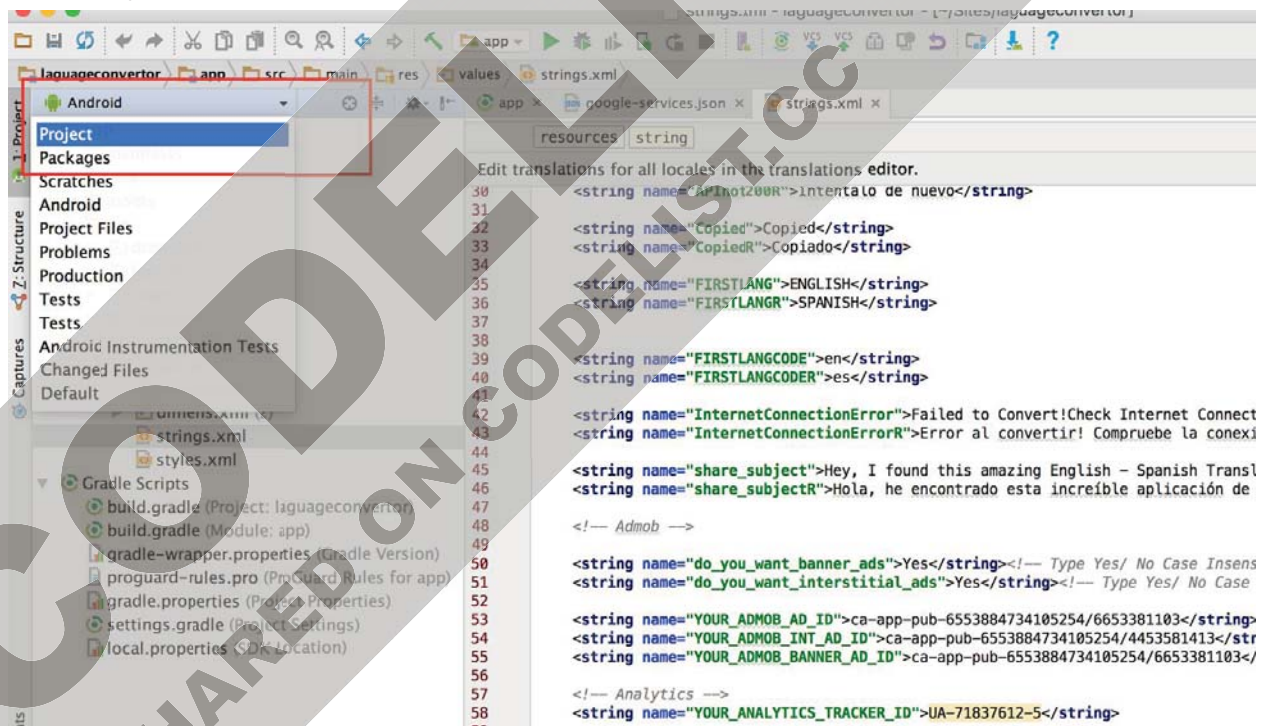

Enter Package Name

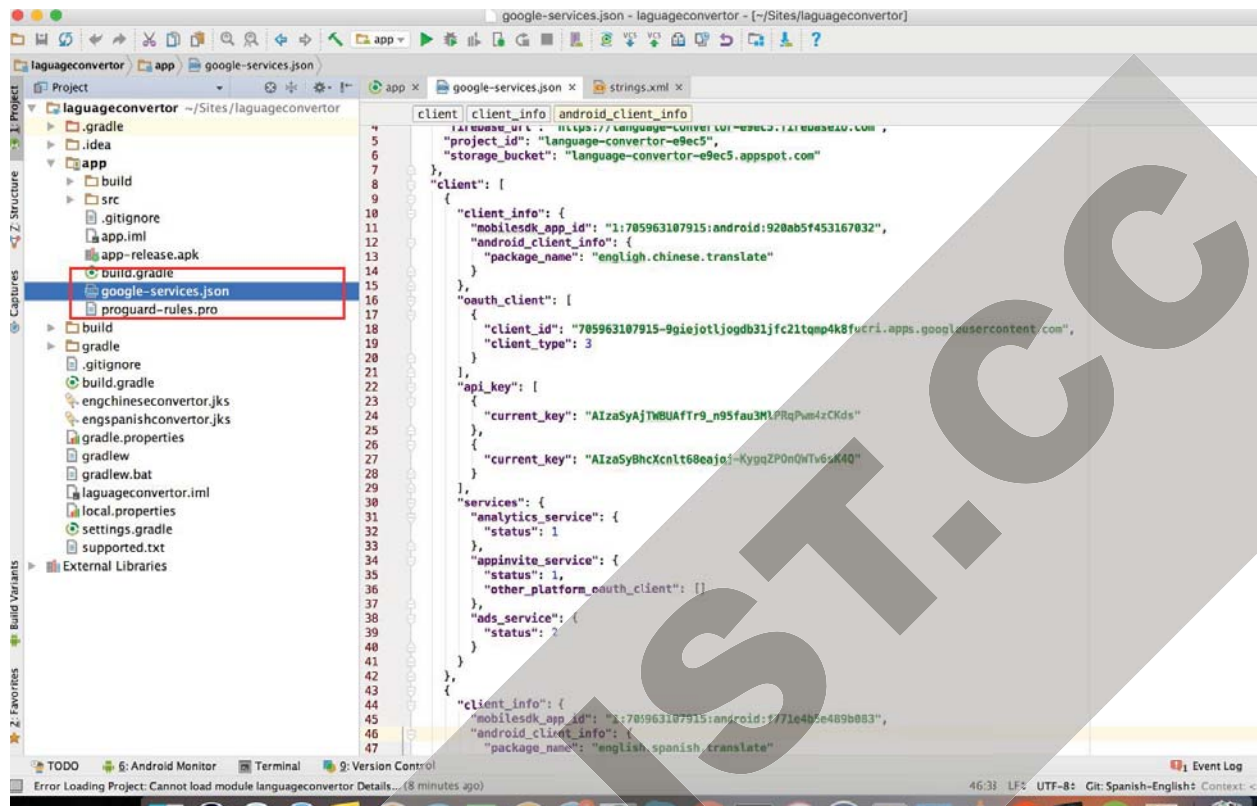

Download Google Services File

Add Replace/Add File to your project in app folder
Go to Project View

Replace google services file in app folder

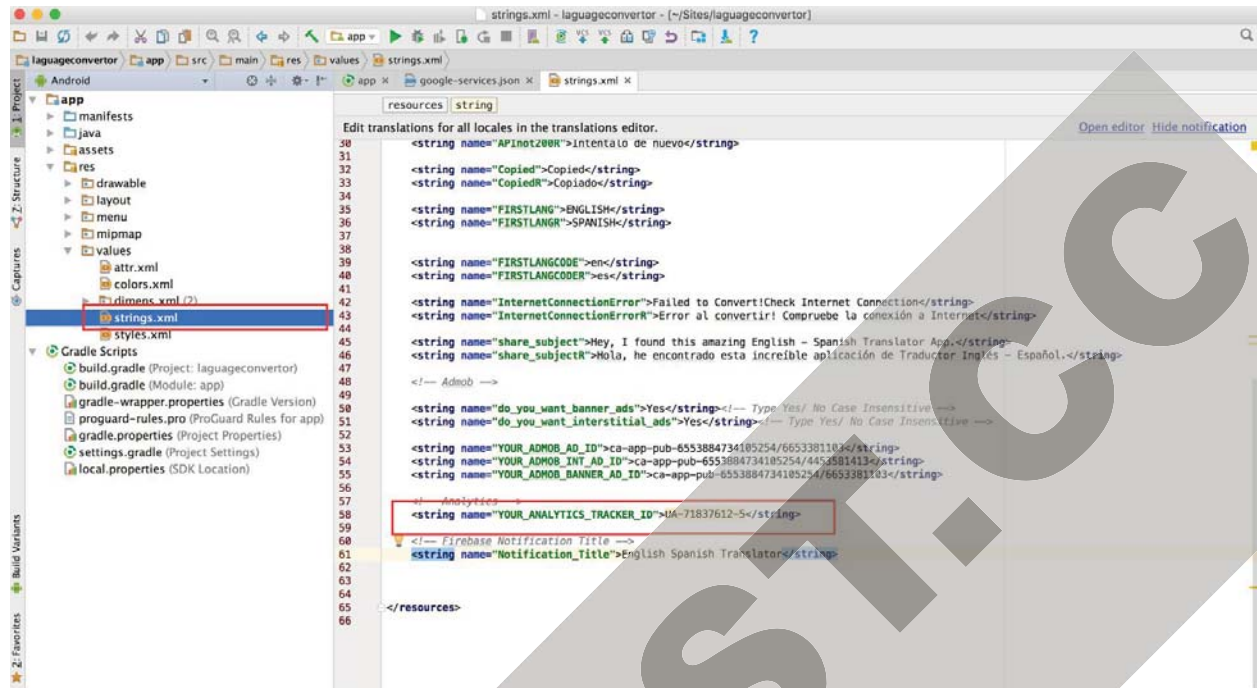

7. Google Analytics Tracker [Only applicable if you have tracker ID]

Please google on obtaining tracking id

<https://support.google.com/analytics/answer/1008080?hl=en>
